About me

I am learning about Computer Science for a third year now. Currently, I am a third year student at Jagiellonian University's FAIS faculty, looking forward to engage in professional software development. I am most interested in web development.

In my free time I attend online courses and small programming projects. I hope to learn swiftly, and to join professional team that creates valueable software.

I would love to learn practical skills and gain some actual working experience. I am excited about finding job that suits my character and potential. I will gladly start off as an Junior Developer in your company.

Experience

At the moment most of my experience stems from my academical activity. I have done exercises, projects and tests during my university courses. I have placed several of these projects on my GitHub repository (link in additional information), which I invite you to check out.

Education

2018 - current	Computer Science at Jagiellonian University's Faculty of Physics, Astronomy and Applied Computer Science in Cracow.
2013 - 2016	VI LO im. Juliusza Słowackiego in Kielce

Abilities
